Java | Spring Boot | Maven | Hibernate | MySql | Html | CSS | Javascript

PROJECTS

The Pig Game, *HTML/CSS/JS* [🔗](#)

It is a multiplayer game with excellent UI. It generates a random number when you roll the dice with animation and you get random chances to store the highest number till the next player's turn:

- DOM manipulation and event handling
- This project is from Jonas Schmedtmann's JavaScript Course.

Overstock (clone), *HTML/CSS/JS (Group)* [🔗](#)

This is a clone website of an E-commerce store with excellent user experience:

- Built the login and Sign up page with Javascript.
- Took the data for product pages.
- And built the Favourites page.

Java project are to be made in this unit will update soon
